

## INDEXES TO THE THEMATIC CATALOGUE

Composers	281
Titles	285

Reference is made to thematic catalogue numbers, not pages. A figure followed by the letter n denotes a reference in the commentary alone. The commentaries are indexed when they contain alternative attributions and titles. Titles are indexed under the first word omitting initial articles and numbers, except that named In nomines are indexed under the name. Variant spellings, for different pieces with the same title, are ignored unless they seriously affect the alphabetical order. The following headings have been standardised: Almain, Fantasia, Galliard, Jigg, Pavan. Cross references are given for important words not at the beginning of titles.
